Submissions

Publication Process

- Articles will be reviewed by two (2) experts in the subject area with extensive teaching and research experience.
- The reviewers will be anonymous to the authors throughout the review process.
- The review result will decide whether the article is published or not.
- If the article is approved, the author will get an acceptance letter informing them of the publishing date and publication fee.
- Reviews take approximately two weeks.
- The authors will be contacted once the article is published online.

Copyrights

The author(s) retain all copyrights, with first publishing rights given to BA journals.

When an author submits a manuscript to any BA-journal for review and publication, it means that the author has given the journal explicit permission/consent to publish the paper without additional permission/consent from the editor.

Authors who want to withdraw their submissions must formally notify the Editor within one month of submission; otherwise, the work will be published at a later date. All Copyright claims should be sent to info@bajoournals.com

Publication Fee

If any article is accepted for publication, author(s) will pay a publication fee of $30. The payment method(s) will be notified to the authors by the Editors.

eMail Submission

To submit, send your manuscript to submision@bajournal.com
